Cometic Gasket, Inc. - An Exclusive NASCAR Performance Product

COMETIC Custom Gaskets

Cometic's custom gaskets can accommodate virtually any engine configuration from naturally aspirated, to the most exotic turbo and nitrous injected engines. Our commitment is to provide innovative, quality gaskets while maximizing your engine's power and performance. When customization is key, Cometic delivers!

Cometic has the ability to customize any gasket to meet your specific application. Need to change the bore size and/or thickness of a gasket? Or do you need a complete gasket design and execution? The process starts with a simple phone call. After Cometic's in-house Technical Sales Team understands your needs, they work directly with our design engineers to insure the gasket is drawn with state-of-the-art software and manufacture with the best materials possible with the most current and efficient manufacturing processes.

If special tooling is required, we'll provide a pre-production estimate for approval.

Your gasket is then made and shipped.

The lead-time on bore and thickness changes is just three days. A complete gasket design takes just two weeks.

The passion for racing runs deep in our Technical Sales and Engineering Teams. We understand the importance of perfection in your next engine build because we are right there with you racing on weekends.

Cometic Gasket, Inc., is a leading worldwide supplier of gaskets and engine sealing solutions for the Automotive Performance, Powersports, Original Equipment and Remanufactured Engine Industries.

All Cometic products are made in the United States with materials manufactured on American soil.

Launched by four partners including current Founder and CEO Bob Gorman in 1989, Cometic was originally dedicated exclusively to the powersports industry. Operating from a tiny 1,500 square foot manufacturing facility, the company produced a mere 900 SKUs in its first year.

Fast-forward to Cometic's 25th Anniversary in 2014. The company is now wholly owned by the Gorman family - and has grown into a global leader and innovator in the highly competitive engine supplier marketplace.

Housed in a 70,000 square-foot, state-of-the-art R&D and manufacturing center in Concord, Ohio, Cometic Gasket has maintained its deep roots in the powersports industry while expanding to service the Domestic Automotive, Sport Compact, V-twin, Marine, Diesel, Agricultural, Industrial and Stationary Power markets.

Today, Cometic Gasket offers over 85,000 SKUs, shipping gaskets and engine sealing solutions across the globe. Cometic is dedicated to customer satisfaction and provides quality products, delivered on time at a competitive price, designed for each customer's specific application. Cometic is an industry leader in manufacturing processes and committed to pairing the highest possible

quality materials with knowledgeable personnel. Cometic is also dedicated to continually improving all areas of its operations through employee development and involvement, as well as continual and comprehensive reviews of customer feedback.

To ensure superior performance across a wide variety of engine types and sizes, Cometic manufactures gaskets from

a comprehensive range of materials. Whether the situation calls for the latest in advanced technology like the MLS (Multi-Layer Steel) Gasket, or a synthetic blend such as Aramid Fiber, Cometic finds a solution. Cometic stays on the forefront of gasket design technology by utilizing in-house dynamometers and engine assembly rooms to bring its distributors, retailers and ultimately the end-user, the most reliable gaskets available today.

Cometic combines advanced materials with the most current manufacturing processes to provide custom-tailored solutions to meet the needs of each individual customer. Engineers analyze the environment in which the gasket will perform, select the proper material, and apply the appropriate technology to offer the best-performing

gaskets available in today's ever-changing marketplace. Cometic gaskets are the industry standard for championship-winning teams across multiple disciplines of both professional and amateur motorsports.

Cometic Products

Dirt | ATV | UTV | PWC

Top-End Kits | Bottom-End Kits | Clutch and Mag Kits | Crank Seals | Individual Gaskets | Engine Seal Kits

Today's lightweight engines are producing more horsepower, higher cylinder pressures, clamp loads and extreme temperatures. Our commitment is to provide innovative, quality gaskets while maximizing your engine's power and performance. Cometic's gaskets are proudly made in the USA with materials manufactured on American soil. We are constantly updating and adding models to our ever growing library of gaskets.

Be sure to check out our NEW Clutch and Mag Kits made from AFM Material. AFM will not stick to the engine case making replacement quick and easy, no more scraping. The aluminum core gives the gasket strength for a superior seal and prevents the gasket from weeping or crawling out. All gasket kits (Top-End, Bottom-End, Clutch and Mag) are sold with the proper amount of gaskets for one application. Need just one gasket, not the entire kit? No problem, we offer individual gaskets.

Cometic is a proud sponsor of Ricky Carmichael, Team Green, The Orange Brigade & Kawasaki Factory Motocross to name a few.

Cycle Street

Head Gaskets | Base Gaskets | Engine Case Kits

For today's hi-horse power streetbikes, Cometic offers MLS head gaskets, base gaskets and engine case rebuild kits utilizing our best materials available! We have a complete line of streetbike applications from new to old.

Cometic is an industry leader in manufacturing processes and committed to pairing the highest possible quality materials with knowledgeable personnel. Cometic stays on the forefront of gasket design technology by utilizing in-house dynamometers and engine assembly rooms to bring its distributors, retailers and ultimately the end-user, the most reliable gaskets available today.

***Head Gaskets | Base Gaskets | Engine Only Kits | Rocker Box Kits
| Primary Kits | Transmission Kits***

Cometic Gasket has been servicing the American V-Twin Industry for over 25 years. Cometic offers a full line of gaskets for models from 1936 through current day models. Our gaskets can be ordered individually or as complete kits to do the entire job. Cometic also offers full on custom gaskets as well for shelf stock prices. So whether it's a stock bike or a fire breathing all out race machine Cometic has you covered.

All of Cometic's gaskets and seals have been tested on both the street and the track as well as vigorous Dyno shakedown. Rest assured every gasket has been methodically thought out before it is used in any application. Cometic uses it's EST "Extreme Sealing Technology" philosophy while making every gasket. Demand the best, Cometic to seal your engine.

Snowmobile

Complete Kits | Top-End Kits | Exhaust Kits | Intake Kits | Power Valve Kits | Crank Seal Kits

Cometic's Snowmobile gaskets and gasket kits are used by professionals in high-performance machines and as OE replacements worldwide.

Cometic combines advanced materials with the most current manufacturing processes to provide custom-tailored solutions to meet the needs of each individual customer. Engineers analyze the environment in which the gasket will perform, select the proper material, and apply the appropriate technology to offer the best-performing gaskets available in today's ever-changing marketplace.

Custom Gaskets

Need to change the bore size and/or thickness of a gasket? Or do you need a complete gasket design and execution?

The process starts with a simple phone call. After Cometic's in-house Technical Sales Team understands your needs, they work directly with our design engineers to insure the gasket is drawn with state-of-the-art software and manufactured with the best materials possible with the most current and efficient manufacturing processes. If special tooling is required, we'll provide a pre-production estimate for approval. Your gasket is then made and shipped. The lead-time on bore and thickness changes is just three days. A complete gasket design takes just two weeks.

GASKET MATERIALS

MLS® Multi Layer Steel Gaskets

The Cometic MLS gasket is comprised of three to five layers of Stainless Steel. Cometic uses Stainless steel for increased strength, its ability to rebound and corrosion resistance. The outer layers of the gasket are embossed and coated on both sides with a Viton rubber material designed to meet the demands of a variety of harsh sealing environments, load conditions and surface finishes. The Viton coating is heat resistant to 250C or 482F.

The center or shim layer of the gasket is comprised of an uncoated Stainless Steel layer, which can be varied to accommodate multiple thickness requirements. The MLS gasket is ideal for any kind of head and block combination.

By design the MLS gasket promotes an even torque load across the sealing surface allowing for measurable reduced bore distortion.

Available thickness:

.027", .030", .036", .040", .045", .051", .060", .066", .070",
.075", .080", .086", .092", .098", 120"

AFM (Aluminum Foam Material)

AFM is a chemically blown, compounded nitrile synthetic rubber bonded to an aluminum core with temperature resistance of over 250F. AFM material has an 85% recovery while maintaining strong torque retention. AFM does not require gasket sealers or re-tightening.

Available thickness: .018", .032", .060"

Rubber Coated Stainless Steel

A stainless steel core with a .001" thick coating of viton rubber on both sides.

Available thickness: .010", .014", .020"

Aramid Fiber

Is a premium hi-temperature, hi-density creep resistant material that requires no re-torquing and is fuel resistant. All Cometic fiber materials are asbestos free and require no additional sealants.

Available thickness: .012", .015", .020", .031", .039", .047", .060", .094", .125", .188

Copper (Dead Soft)

Available thickness: .005", .010", .016", .020", .027", .032", .043", .050", .063", .080", .094"

Aluminum

Solid material ideal for spacers and shims.

Available thickness: .010", .016", .020", .025", .032", .040", .050", .063", .080", .100", .125", .188", .250", .313", .375", .500"

Cometic Gasket - An Exclusive NASCAR Performance® Product

Top End Kits

Fit 2-Stroke and 4-Stroke applications and are supplied with the necessary gaskets and seals for a complete top end build. See your specific model for a detailed component listing. All components are also available individually.

Bottom End Kits

Fit 2-Stroke and 4-Stroke applications and are supplied with the necessary gaskets and seals for a complete bottom end build. Some applications will contain our new Oil Seal Kits. See your specific model for a detailed component listing. All components are also available individually.

Oil Seal Kits

Complete Oil Seal Kits fit 2-Stroke and 4-Stroke applications and contain all the required oil seals to rebuild a bottom end. All components are also available individually.

Clutch & Mag Kits

Fit 2-Stroke and 4-Stroke applications and use AFM gaskets and/or O-rings, for when a quick Clutch or Timing Inspection are needed, or just to have a spare for frequently damaged covers. All components are also available individually.

Cometic MLS Head Gasket Instructions for Harley Davidson Evolution & Twin Cam applications

NOTE: DO NOT USE THE CYLINDER HEAD ALIGNMENT DOWEL O-RING WHEN USING AN MLS GASKET.

NOTE: COMETIC GASKET RECOMMENDS THE HEAD BOLTS BE SET AT A FINAL TORQUE OF 42FT-LBS.

1. Check all gasket surfaces for flatness and imperfections, an excessively rough finish may cause gasket failure. A 50RA surface is recommended.
2. Check all hardware for defects, clean all threads and lubricate with light machine oil. Including the underside flange of the head bolts. (Wipe away any excess.)
3. There are two short and two long head bolts. The short go on the spark plug side while the long go on the pushrod side.
4. Before installing the head, place the head gasket on the cylinder and locate the gasket using the cylinder head alignment dowels (NOTE: The gasket is embossed around the dowel area and the dowel holes are smaller. Do not use dowel alignment o-rings with an MLS gasket.)
5. Once the gasket is located in place make sure the gasket fits your bore. The gasket should not hang in the bore or combustion chamber in any area.
6. If using a head or cylinder other than stock, check brass rivet location to ensure the rivet does not interfere with the sealing surface in any way. Some aftermarket castings are substantially larger than stock castings and may interfere. Simply remove the brass rivets, "side cutters work well".
7. Once proper fitment is established proceed with head installation and torque. (NOTE: See illustration for sequence.)
8. Alternately snug all the head bolts finger tight.
9. In sequence tighten all head bolts to 9 ft-lbs. Then in sequence tighten all head bolts to 14 ft-lbs. Again in sequence tighten all head bolts to 22 ft-lbs. Then in sequence tighten all head bolts to 35 ft-lbs and finally torque all head bolts to a final torque of 42ft-lbs in sequence.

Note: Failure to comply with any or all of these instructions may result in premature failure of the head and or base gasket.

Note: All Panhead, Shovelhead & Iron Sportster models use factory specs when using an MLS head gasket.

V-Twin Hi-Performance Big Bore

Display Board Complete with Gaskets, Seals & O-Rings

- Sold complete with all Gaskets, Seals & O-Rings and the necessary clamshells, display hooks and xmas treeclips for mounting
- Both Cometic and OE part numbers are printed on boards for easy clarification of parts
- 3 color design, boards measures 48"W x 32"H and are manufactured from 20 mil flexible vinyl and mount easily on 1/8" or 1/4" pegboard

Ison is a full service performance engine builder, serving the powersports and automotive industries.

Ison provides precision workmanship by our experienced staff for everything from complete engine builds and dyno testing, to component machining and assembly.

Outfitted with the finest equipment including Sunnen hones, Kwik-Way boring bars, Serdi seat cutters, and Haas 5-axis CNC mills, close tolerance machining and repeatability can be expected. To complete our expansive list of services, we have added engine dyno testing which is made possible by our new in-house Superflow 902S dyno.

Our extremely clean state-of-the-art facility is a testament to our principles and dedication to quality when working on your power plant.

NEW!

Superflow 902S Engine Dyno
